

THE PACIFIC-ASIAN LOG

October 2010 – Listed by Frequency

Introduction

First issued in August 2001, The PAL lists all known medium wave broadcasting stations in southern and eastern Asia and the Pacific. It covers an area extending as far west as Afghanistan and as far east as Alaska, or roughly one half of the earth's surface! It now lists over 4000 stations in 60 countries, with frequencies, call signs, locations, power, networks, schedules, languages, formats, networks and other information. The log also includes longwave broadcasters, as well as medium wave beacons and weather stations in the region.

Since early 2005, there have been two versions of the Log: a downloadable pdf version and an interactive on-line version.

The pdf version is updated twice a year and is available at no cost. There are three versions, sorted by frequency, country, or both.

The on-line version is updated more often (about once a month) and allows the user to search by frequency, country, location, or station. It and the pdf versions can be found at the Radio Heritage website at:

<http://www.radioheritage.net/PAL.asp>.

This site also features @ a Glance guides, quick reference guides for stations in a particular country or region. These guides are abbreviated versions of the PAL listings. The first such guide, listing New Zealand stations, can be downloaded from the Radio Heritage website at

Abbreviations & Comments

Frequency: To facilitate sorting, all stations are listed to the nearest kHz. See the comments column for information on off channel operations. To the right of the frequency, I've noted stations which vary in frequency with a v, those which are currently inactive with a *, and future stations (not yet on the air) with an f. A ? means uncertain status (not clear if it's still operating).

Call: The station's government-assigned call letters

Network/ Slogan: This is generally the Network or Station name as announced on the air (or the English translation of it). Numbers or letters at the end refer to the network (1,2, etc., L or lcl = local program). Slogans for American and Australian commercial stations are informal/unofficial and subject to change. For Philippine stations, I've shown the name of the owner (often used on the air) plus informal slogans (where known).

Days of the week are intended to be UTC, and may not be the same as local dates, i.e. 0100 local time on Monday in Japan is actually 1600 Sunday UTC. CNR1 has been heard ID'ing as "Zhongyang Renmin Guangbo Diantai, Zhongguo zhi Sheng, China National Radio" at the top of the hour. At other times the longer name "Zhongguo zhi Sheng Guangbo Diantai" has also been used.

At 1030-1100 daily, CNR-1 carries a program called "Quanguo Xinwen Lianbo" or National News Hook-up which, as the name implies, is relayed by many local stations. There is a similar program, relayed by many stations, in the local mornings at 2230-2300 called "Xinwen he Baozhi Zhaiyao" or News and Summary of Newspapers.

Both programs open with the music "Ode to the Motherland", which you can also hear in the video at http://www.56.com/u68/v_MTk1Njl5ODU.html

Some local and provincial stations may relay CNR or CCTV news at other times.

CNR2 is called Jingji zhi Sheng ("Voice of Business"), in English "China Business Radio". "Zhongguo zhi Sheng" is also heard in connection with the newscasts in the 2nd channel. The CNR organization name "Zhongyang Renmin Guangbo Diantai" (Central People's Broadcasting Station) is retained and is often added before the individual channel names.

CNR2 operates 2055-1605 on 630 720 855 900 and 1116, plus shortwave. The following listing of shortwave outlets below 8 MHz and hours of operation is from the CNR website in October 2009:

Allnight Nippon is a popular late night program carried by 36 radio stations in Japan (about two-thirds of the commercial MW stations in the country).

The program is produced by JOLF-1242 (Nippon Hosho) and is broadcast 1300-1500 M-F, 1600-1930 M-Sa (2000Fr), and 1400-1600 Su (JOLF only). The 1300-1500 segment is called "Allnight Nippon Super!" 1600-1800 "Allnight Nippon Dot Com", and 1800+ is called "Allnight Nippon-R". Many stations only air the 1600-1800 part.

See the program's web site at <http://www.allnightnippon.com/> (in Japanese) for additional details. The following list of affiliates was compiled by Chuck Hutton in December 2007.

KOREA (SOUTH):

KBS1 is a 24-hour network of news, sports, and public affairs programs. There are a number of key regional stations, each of which feeds a number of lower-powered repeaters in neighboring towns.

The regional stations generally have local programs 2335-2357 0210-0240 and 0710-0757. Two of the blocks are produced at the local broadcast station level and are sent to any relay stations which may be subordinate to the broadcast station. One of the time blocks is for provincial level programming and is relayed by all broadcast stations and relay stations within the provincial level network. Sometimes two provinces can be combined into one provincial level network. The balance of the programming originates from Seoul and is carried by all stations in the network.

Local ID's are inserted at the top of the hour, but may or may not be broadcast every hour.

The concept of broadcast station versus relay station is important because it appears that relay stations might not broadcast their own programming. All the KBS1 stations for Seoul and Gyeonggi Province relay HLKA-711 100% of the time.

KBS 1 stations operate on 540, 567, 594, 621, 630, 648, 657, 675, 711, 738, 747, 756, 783, 846, 864, 882, 891, 909, 918, 927, 945, 963, 1026, 1026, 1035, 1044, 1062, 1089, 1098, 1152, 1206, 1233, 1260, 1269, 1278, 1305, 1323, 1341, 1395, 1449, 1458, 1467, 1485, 1485, 1503, 1539, 1584, and 1602.

KBS2 is an arts and culture network and operates 22 hours per day on 558 and 603 kHz.

KBS3 is also known as the "Voice of Love" and has programming for the disabled 21 hours per day. It operates on 576, 639, 675, 936, 1008, and 1224.

Hanminjok Bangsong (formerly Liberty Network) is government-operated with programs intended for listeners in North Korea on 972 and 1134 kHz. It is also carried on 1170 when the transmitter is being not used by KBS World Radio. The name roughly translates as "One people/race/nation broadcast".

Christian Broadcasting System operates 24 hours from Seoul on 837 kHz. The other outlets operate 20 hours a day on 999, 1251, 1314, and 1404. The website is <http://www.cbs.co.kr/>

Munhwa Broadcasting Corporation is a privately operated commercial network with varied programming. See the station listings for local program breaks as of April 2004 (compiled by Bill Harms). The main station is HLKV-900 in Seoul. Most stations carry local programs and news several times during the day. See individual listings for details.

All MBC stations carry local programs 1305-1400 and 1405-1500 daily, so don't expect parallel programming at those times. All stations broadcast a local sign on announcement daily at 1955-2000. MBC stations operate on 765, 774, 810, 819, 846, 855, 900, 990, 1017, 1080, 1107, 1161, 1215, 1242, 1287, 1332, 1350, and 1386.
